
What Should You Do?

- 1.** You have a coupon for cereal: \$2.50 off if you buy four boxes. Is this a good deal for you? Do you think you should buy four boxes?
- 2.** You see an air conditioner on sale for 50% off. Is this a good deal for you? Do you think you should buy the air conditioner?
- 3.** You get points for gas when you shop at your grocery store. The points give you 20 cents per gallon off if you buy gas at a certain gas station. Is this a good deal for you? Do you think you should buy gas at that gas station?
- 4.** The shoes store has a sale: buy one pair, get the second pair at half price. Is this a good deal for you? Do you think you should buy shoes at the store?
